<b>3. RENEWAL</b> – Electronic order of qualified digital certificates on a new USB key	26,43 €	3 years	79,30 €

## 2. Qualified electronic time stamping

QUALIFIED ELECTRONIC STAMP is similar to an electronic signature, with the difference that the signatory is not a natural person with a name and surname, but a legal entity as a whole. A qualified electronic stamp with one pair of keys is used for secure electronic stamping, encryption and access control.

	Informative calculation of the price per 1 year	Validity of the certificate	Price with 22% tax, validity 3 years
<b>1. Standard issue procedure on smart card</b> Digital certificate is issued no later than 5 working days after the submission of all necessary documentation and payment received.	28,85 €	3 years	86,55 €
<b>2. Standard issue procedure on USB key</b> Digital certificate is issued no later than 5 working days after the submission of all necessary documentation and payment received.	34,62 €	3 years	103,86 €
<b>3. Issuance of a qualified e-stamp for systems (HSM, devices, servers, etc.)</b> The digital certificate is issued no later than 5 working days after the submission of all necessary documentation, payment received and electronic request.	71,37 €	3 years	214,11 €

### 3. Website authentication certificate

WEB AUTHENTICATION CERTIFICATE is used to certify the public keys of users and organizations that have a valid web address. The server key is used to encrypt a single symmetric session key, which then secures all communication between the server and the client.

	Informative calculation per 1 year	Validity of the certificate	Price with 22% tax
Issuance of a certificate for website authentication	75,00 €	2 years	150,00 €

### 4. Smart card readers
